Inspection fees set for storm shelters, re-roofs

ADA – Effective July 1, the City of Ada will begin collecting permit and inspection fees on newly built storms shelters and homes being re-roofed.

A storm shelter permit is \$10 and the inspection fee is \$15. This only applies to new shelters, not those already in existence. However, an inspection may be requested on an established storm shelter and the fee will still be \$15.

A permit for a new roof on an existing home costs \$10. An inspection costs \$5 per thousand square feet of ground floor space, with total square footage to be rounded up to the nearest thousand.

The inspection department will be issuing citations to anyone in violation of these new ordinances. For more information, contact Building Official David Daffern at 436-8150.
