## **City to start collecting state's new permit fee**

ADA – Effective immediately, the City of Ada – along with all Oklahoma's cities and towns – will collect a permit fee under the Uniform Building Code Commission Act.

The law established each permit fee at four dollars (\$4), regardless of commercial or residential application. Permit types subject to the state fee include building, plumbing, mechanical, electrical, swimming pool, and fire protection.

The Oklahoma Legislature created the Uniform Building Code Commission Act in June 2009. The purpose of the new law is to establish a set of minimum building code standards that can be enforced throughout the state.

The state permit fee is payable in the Finance Office inside Ada City Hall. For more information, contact Building Official David Daffern at 436-8150.
